

Oregon PDMP Integration Steering Committee Charter

Updated 4.7.22

Background

A statewide PDMP gateway subscription was funded and developed to allow authorized Oregon prescribers, dispensers and their delegates access to Prescription Drug Monitoring Program (PDMP) data electronically within their health information technology (IT) system via a statewide gateway model.

Oversight of this work is the responsibility of the HIT Commons Governance Board whose primary function is to accelerate the selection, procurement, financing, implementation and adoption of health IT initiatives in Oregon.

A high priority, early initiative of the HIT Commons was to assemble a statewide PDMP Integration Steering Committee. This subcommittee is responsible to guide the successful implementation and adoption of the PDMP gateway model in Oregon.

PDMP Integration Initiative Goals:

- Improve ease of provider access to PDMP data
- Reduce clinician time to find PDMP data
- Increase usage of PDMP data at the point of care
- Contribute to the reduction of opioid prescribing
- Enable access to Oregon PDMP data from within prescriber's clinical workflow
- Enable access to other states PDMP data, which meets OR statute requirements for datasharing

PDMP Integration Initiative Expected Benefits:

- Increase utilization of the Oregon PDMP data by authorized prescribers
- Increase compliance with Oregon prescribing guidelines by making PDMP data more easily accessible
- Improve prescriber's efficiency by reducing time to access PDMP data
- Reduce cost to connect to the PDMP Gateway with federal match dollars
- Contribute to reducing opioid prescribing/drug overdose death rate

Role and Responsibilities

The primary responsibility of the Steering Committee is to ensure successful adoption and implementation of the gateway across the state as well as to:

- Guide a strategic approach to implementation and adoption of the gateway model
- Remove project barriers
- Monitor performance to project goals and success criteria
- Assess and evaluate the overall value of the statewide subscription
- Collaborate, coordinate and communicate with eligible entities and providers
- Promote adoption and spread of statewide gateway subscription services

Scope

Assist in implementation of PDMP EDIE and EHR integration with all licensed prescribers in the state of Oregon including hospital-based, clinic-based, behavioral health, tribal agencies, licensed pharmacists, etc.

Out of Scope

The scope of the OR PDMP Integration Initiative does *not* include:

- a. Operational management of OR PDMP
- b. Enterprise subscriptions to additional products or systems
- c. Customizations of interfaces, vendor functionality or other custom enhancements
- d. Duplication of all functionality or customizations available on web portal only

Meetings

The OR PDMP Integration Steering Committee will meet quarterly or as needed. Meetings will be virtual with phone-in options available. In addition, workgroups may be formed to carry out specific responsibilities (e.g. data reporting).

Membership

The Steering Committee will include broad stakeholder representation as listed below. Members are approved by the HIT Commons Governing Board.

StakeholderGroup	Representative(s)
PDMP Advisory Commission	John McIlveen, PhD, LMHC <i>State Opioid Treatment Authority, DHS</i>
Rural hospitals	April Brock <i>ED Manager, Grande Ronde Hospital</i>
Primary Care(OMA)	Jane Ware, MD <i>Medical Director & Ambulatory Informatics, Legacy</i> Courtnei Dresser (Chair) <i>Director of Government Relations, Oregon Medical Association</i>
Health Systems	Linda Cruz, MD <i>CMO, Providence Medical Group Oregon</i>
Dental	Alyssa Franzen, DMD <i>Dental Director, Care Oregon</i>
Public Health/PDMP	Drew Simpson <i>PDMP Program Coordinator, OHA</i>
EHR hosting identity	Paul Matthews <i>CTO/CIS Officer, OCHIN</i>
BH/Addiction/Recovery	Kim Swanson <i>Chair of Pain Standards Task Force / Central Oregon Health Council, Director for Behavioral Health, Mosaic</i>
DispensingPharmacist	Matt Marcus, PharmD <i>Informatics Subcommittee for the Oregon Society of Health-system Pharmacists, Legacy</i>
