Welcome to the HIT Commons Quarterly Newsletter
May 2022

Headline News

Douglas County, through support from the IMPACTS grant to better serve individuals who are utilizing jails and emergency departments, has partnered with their county jail leadership to add jail booking/release information into the Collective platform. This information is being generated into daily reports that community partners can leverage to better coordinate care for those who have been recently incarcerated, or recently released back to the community. Stronger coordination for incarcerated individuals is called out as an important area for improvement in the recent Oregon Medicaid waiver renewal. If you are interested about learning more, contact Justin Keller, justin@orhealthleadershipcouncil.org.

Emergency Department Information Exchange/Collective Platform

- Work is underway on a Hospital Value report which will provide hospitals insight into the number and types of ED notifications being received, the quality of ADT feeds, and opportunities for enhanced integration with the Collective Platform. If your hospital is interested in being an early adopter, please contact HIT Commons at mark@orhealthleadershipcouncil.org
- As a reminder, please visit our EDIE Resources page for past webinar recordings, toolkits and other resources.
- HIT Commons and Apprise Health Insights revised and expanded EDIE Quarterly Dashboards for a deeper look at hospital ED trends, including county-level trends for mental health and substance use-related visits.
- The first EDIE Notification Advisory Council meeting was held on April 4th. Several recommendations were agreed upon and are being implemented. We are looking for additional ED provider representation – especially from non-Epic facilities. If interested, please email mark@orhealthleadershipcouncil.org

Collective Medical is continuing to grow and add staff for support of its platform. New key contacts are:

Janet Devlin	Customer Success Executive	Janet.Devlin@collectivemedicaltech.com
John Sims	Health Plans	john.sims@collectivemedicaltech.com
Kim Studzinski	Hospitals	kimberly.studzinski@collectivemedicaltech.com
Gabby Weatherwax	Clinics	Gabby.Weatherwax@pointclickcare.com
Matt Ver Eecke	CCO	matthew.vereecke@collectivemedicaltech.com
Janet Hanneken	Program Manager - OR	Jane.Hannejen@collectivemedicaltech.com

Prescription Drug Monitoring Program Integration

- In collaboration with Bamboo Health, HIT Commons launched its second annual communications campaign to promote adoption of PDMP integration. This e-mail campaign will run through mid-May.
- Q1 PDMP implementation report is linked here.
- Q3 reporting from OHA Oregon Prescription Drug Monitoring Program 2021 is linked here:

Upcoming Events

Two webinars are scheduled in the next month (click to register):

- Increased Efficiency with IET Metric Cohorts: Tools to Support SUD Professionals – May 25th 12:00p.m.
- Care Coordination Tools for Behavioral Health: Collaborating through Collective Medical – June 1st 11:00 a.m.

Save the Date for call collaboratives (registration details will be sent soon)

- Social Determinants of Health Collaborative: November 4, 2022
- CCO/DCO Collaborative: December 2, 2022

We are always looking for suggestions on webinars and collaboratives for our members. If you have suggestions, please email to: Liz@orhealthleadershipcouncil.org

Other HIT Happenings across the State of Oregon: Oregon Health Authority (OHA): OHA's Health Information Technology Oversight Council (HITOC) is engaged in updating the Health IT Strategic Plan for Oregon. Currently, work is focused on a Health Information Exchange (HIE) Workgroup and a Community Information Exchange (CIE) Workgroup, to recommend strategies to accelerate, support, and improve HIE and CIE across the state. HITOC's August meeting will review draft CIE recommendations to the legislature as required in House Bill 4150 (2022). All HITOC and workgroup meetings are open to the public, and public comment is always welcome at the meetings or in writing: please send to HITOC.info@dhsoha.state.or.us.

HIT Commons is a public/private partnership designed to accelerate and advance health information technology adoption and use across the state, leverage public and private investments, and expand access to high value data sources. HIT Commons is co-sponsored by the Oregon Health Leadership Council (OHLC) and the Oregon Health Authority (OHA), and is jointly funded by OHA, hospitals, and health plans
